
GENERAL MANAGER MESSAGE

Dear Member,

I hope this message finds you well.

Typhoon Precautions

Typhoon Noul, the first No. 9 typhoon signal of 2026, passed last week. Fortunately, HK Marina was not affected, and I trust that all vessels berthed at the pontoons remained safely secured.

As further typhoons may occur in the coming months, members are reminded to stay alert, monitor high and low tide schedules closely, and ensure all typhoon precautionary measures are properly in place.

For further information, please refer to my previous letter regarding typhoon and tropical cyclone precautionary arrangements.

Annual Vessel Documents

Members are reminded to keep all vessel documents up to date and submit the latest versions to the Marina Office annually for compliance purposes.

The following documents are required each year:

1. Certificate of Ownership
2. Operating License
3. Certificate of Insurance
4. Recent photos of the vessel

If you have any questions, please contact the Marina Office at 2792 1436.

Marina & Operations

Members are encouraged to visit our new website and note the newsletter section, which will be used to share important updates.

Only a limited number of dinghy label application forms have been returned so far. Car parking labels will also be issued to all members shortly to improve control, support easier identification during busy weekend periods, and assist the security team with management.

Berthing Facilities

The scheduled replacement of wooden fenders is continuing. Deep cleaning of the jetties is now approximately 80% complete, and the Marina team expects to finish the work in August.

We also met with CLP on site to follow up on our requests for Jetties C and D. Enhancement works are expected to take place in August, with the schedule to be provided by CLP in due course. These improvements are intended to provide a better and more stable power supply for members using the berthing pontoons.

Restaurant – The Terrace

The restaurant is open seven days a week, and we hope members are enjoying its service and environment. A new menu and beverage list will be introduced in August. For further details, or to arrange a small function or birthday party, please contact Marco Leung, who can prepare a tailored menu for your consideration.

We have also upgraded the changing room amenities with hand towels and bath towels to enhance the member experience. We remain committed to providing a more personal and premium service, and we welcome your feedback as we continue to make improvements where needed.

See you soon at the Club.

Kind regards,

Billy Ng
General Manager
Hong Kong Marina Limited
